EDUCATION

E.E PROFESSOR FERNANDO BUONADUCE
HIGH SCHOOL DIPLOMA

Jan 2014 - Dec 2020
Osasco, So Paulo

SKILLS

PROGRAMMING LANGUAGES	Html, Css, Javascript
LIBRARIES/FRAMEWORKS	React, Node, bootstrap
TOOLS / PLATFORMS	Git, Github

PROJECTS / OPEN-SOURCE

SINAIS EM FOCO | [LINK](#)

Html, Css, javascript

Signs in Focus is an interactive platform developed with HTML, CSS, and JavaScript, focused on teaching the alphabet and words in Libras (Brazilian Sign Language) for beginners. The application offers a user-friendly and intuitive interface, allowing users to explore each letter of the Libras alphabet and build words while viewing images that represent the corresponding signs. With a responsive design and interactive buttons, Signs in Focus aims to democratize sign language learning, making it more accessible and inclusive, and promoting a basic understanding of this important visual communication language.
